

CASH FOR KITCHENS

West Basin's Water Efficiency Program for Restaurants and Commercial Kitchens

Save water, energy and money with the *Cash for Kitchens* program.

THE PROGRAM

West Basin offers free water-use assessments and conservation training for restaurants and commercial kitchens. Participants receive training materials and can qualify for free water-saving devices such as:

- Pre-rinse kitchen sprayer
- Faucet aerators
- Faucet flow control valves
- * *Rebates are available for ice machines and kitchen steamers.*

HOW THE PROGRAM WORKS

The water-use assessment provides restaurants with information of their current water practices and equipment, strategies on how to better conserve water, and free materials to assist management in training their employees to be more water efficient.

HOW TO QUALIFY AND SIGN UP

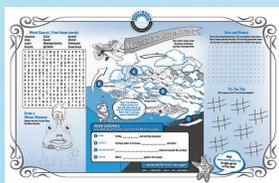

Restaurants and kitchens must be located in the West Basin Division IV service area (*includes the cities of Culver City, Malibu, West Hollywood and the unincorporated Los Angeles areas of Topanga, View Park-Windsor Hills and North Ladera Heights*). To schedule a site visit or for eligibility questions, contact Hastings & Co. at (714) 296-2740 or nola@hastings-co.com and ask about the Cash for Kitchens program.
